

Washington State to restore and enhance conditions in riparian areas by planting trees and shrubs for the benefit of fishery habitat and water quality; and

Whereas, The conservation reserve enhancement program is available for a number of categories of agricultural lands but is not available to lands that produce perennial horticultural crops;

Now, therefore, Your Memorialists respectfully pray that the Secretary of the Department of Agriculture review the department's policies regarding the conservation reserves enhancement program and alter those policies to allow the inclusion in the program of lands that are currently used to produce perennial horticultural crops. Be it

Resolved, That copies of this Memorial be immediately transmitted to the Honorable George W. Bush, President of the United States, Ann Veneman, the Secretary of the United States Department of Agriculture, the President of the United States Senate, the Speaker of the House of Representatives, and each member of Congress from the State of Washington.

POM-51. A resolution adopted by the House of the Legislature of the State of Missouri relative to the Individuals with Disabilities Act; to the Committee on Appropriations.

RESOLUTION

Whereas, the original passage of the federal Individuals with Disabilities Education Act (IDEA) in 1975 established a program of free appropriate public education to better enable students with disabilities to achieve their greatest potential; and

Whereas, IDEA also represented an advance in civil rights for disabled children through equal protection; and

Whereas, Missouri has demonstrated a strong commitment to serving our children with disabilities through provision of special education and related services to over 127,000 students (14.18 percent of public school enrollment); and

Whereas, the original intent of the 94th Congress was to fund IDEA at 40% of the average per pupil expenditures for Part B of IDEA, but funding has never exceeded 13%; and

Whereas, federal law requires school districts to meet federal standards, but Congress has not provided the promised funding necessary to achieve those standards; and

Whereas, Missouri and several other states have legal prohibitions on passing unfunded mandates to the local level and therefore must either make up the shortfall or ask local districts to do so and thereby risk litigation; and

Whereas, local districts must then cover the mandated expenses of special education and reduce funding for teachers, textbooks and supplies, building maintenance and repair, as well as meet the counterproductive reporting burden which severely reduces teacher availability; Now therefore, be it

Resolved, That the members of the House of Representatives of the Ninety-first General Assembly, First Regular Session, the Senate concurring therein, hereby urge that before the 107th Congress considers any other education initiatives, that IDEA receive prompt and full funding, and the reporting requirements of IDEA be significantly reduced; and be it further

Resolved, That the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for the President of the United States Senate, the Speaker of the United States House of Representatives and every member of the Missouri Congressional delegation.

POM-52. A joint resolution adopted by the House of the Legislature of the State of

Maine relative to National Parks in Maine's North Woods; to the Committee on Energy and Natural Resources.

JOINT RESOLUTION

Whereas, Maine residents and visitors enjoy the privilege of using large tracts of private land in the north woods for recreational uses such as snowmobiling, hunting, hiking, fishing, white water rafting and other related functions; and

Whereas, the future of that private land is of great importance to the people of Maine and their outdoor heritage; and

Whereas, the Maine Department of Inland Fisheries and Wildlife and many of the large landowners have or are entering into cooperative wildlife management agreements that ensure the future of critical wildlife population in the north woods; and

Whereas, state agencies and nonprofit organizations are cooperating in an unprecedented effort to secure permanent rights of access to the north woods and keep valuable recreational property and natural habitat undeveloped through conservation easements; and

Whereas, federal ownership or control of the north woods would create many problems including limitations on access and use and loss of local and state control of these areas; now, therefore, be it

Resolved, That We, your Memorialists, oppose the creation of a national park in Maine's north woods and request that the President of the United States and Secretary of the Interior Gale A. Norton abandon plans to conduct a feasibility study concerning establishing a national park in Maine's north woods; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, to the Secretary of the Interior Gale A. Norton and to each member of the Maine Congressional Delegation.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HELMS (for himself, Mr. THURMOND, Mr. HUTCHINSON, and Mr. SMITH of New Hampshire):

S. 873. A bill to preserve and protect the free choice of individual employees to form, join, or assist labor organizations, or to refrain from such activities; to the Committee on Health, Education, Labor, and Pensions.

Mr. HELMS. Mr. President, I am honored to join my distinguished colleagues, the Senator from South Carolina, Mr. THURMOND, the Senator from New Hampshire, Mr. SMITH, and the Senator from Arkansas, Mr. HUTCHINSON, in introducing legislation to protect workers from having to pay dues to a labor union simply to keep their jobs. This bill, briefly titled the National Right to Work Act, repeals Federal labor laws allowing union bosses to coerce dues from workers who want to go to work, earn honest paychecks and support their families without being forced to support a labor organization.

The legislation we are introducing today proposes to put an end to more than half a century of Federal labor policy that directly contradicts Thomas Jefferson's famous statement that "to compel a man to furnish contributions of money for the propagation of opinions which he disbelieves, is sinful and tyrannical."

Specifically, the National Right to Work Act proposes the repeal of those sections of the National Labor Relations Act, NLRA, and the Railway Labor Act, RLA, that allow unions to enter into collective bargaining agreements forcing workers to pay dues as a condition of employment.

These so-called "union security" clauses have been a central tenet of Federal labor law despite interfering with the rights of freedom of speech and association that most Americans take for granted. Under this unfair Federal scheme, labor organizations succeeded in creating workplaces where individual workers have two choices: 1. they either must march in lockstep with local union bosses; or 2. they must forfeit their job.

That's clearly not fair, and in response to the excesses of this abuse of the free association rights of employees, Congress enacted the Taft-Hartley Act in 1947. While this reform bill did not fully right the wrongs of earlier labor legislation, it did grant States the ability to pass legislation overriding the NLRA regarding union security clauses.

Since Taft-Hartley freed State legislature to protect workers, 21 States have passed Right to Work laws, and, not surprisingly, these States have reaped the economic benefits associated with a fair and free labor market.

In fact, the 21 States that have passed Right to Work laws have outperformed non-Right to Work States in job creation, real income, and entrepreneurial growth.

But much work remains unfinished. More than 8 million workers in 29 non-Right to Work States must pay dues to a union as a condition of employment, and another 1 million workers in Right to Work States are forced to pay dues under the Federal Railway Labor Act, which cannot be preempted by State Right to Work laws.

Make no mistake, that warms the hearts of union bosses who take advantage of union security clauses to use workers as cash machines. This gives them an endless source of funding for union activities, including activities not related to collective bargaining activity. The growing influence unions have on the political process—financed by coerced worker dues—is openly acknowledged. During the past election cycle, the AFL-CIO bragged of its plans to spend more than \$40 million on worker-subsidized political activity, nearly all on behalf of liberal candidates.

These politicians who continue to benefit from the Big Labor cash cow have been successful in protecting the union's ability to coerce money from their membership. But the American people aren't fooled. For more than 20 years, Americans have consistently told pollsters that they believe that a requirement to pay union dues as a condition of employment is unfair. In 1997, a Mason-Dixon poll found that 77 percent of Americans agreed with the statement that workers should be able to keep their job regardless of whether they belong to unions.

They're right, and I hope that this legislation will soon put an end to congressional tolerance of forced worker dues. I'm proud to stand with my distinguished colleagues in supporting the National Right to Work Act.

By Mr. TORRICELLI:

S. 874. A bill to require health plans to include infertility benefits, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. TORRICELLI. Mr. President, I rise today to reintroduce legislation that would greatly improve the lives of millions of Americans, thousands of whom live in my State of New Jersey, who are infertile. The Fair Access to Infertility Treatment and Hope, FAITH, Act first introduced during the 106th Congress, will again give hope to those families who have struggled silently for years with the knowledge that they cannot have children.

For many American families, the blessing of raising a family is one of the most basic human desires. Unfortunately almost fifteen percent of all married couples, over six million American families, are unable to have children due to infertility.

The physical and emotional toll that infertility has on families is impossible
